

## ***Foreword***

Today many developing countries lack standards due to resource constraint, failure to understand the concept of quality and vastness of the subject resulting in poor planning of human resource, infrastructure, equipment and services. The dreaded consequences are disease transmissions, loss of lives and economic burden to the nation.

Ministry of Health over a period of time has focused on consolidation of health care services by improving quality, enhancing sustainability, improving accessibility and strengthening human resource development and deployment.

Based on the principle of delivering quality in clinical laboratory services, QASD has endeavored to draw up standards for services, equipment, reagents and human resources. The efforts of the division are commended and appreciated at this point of time as it has come at a critical juncture where our efforts are geared towards providing quality health care services.

These standards drawn up for clinical laboratory services are in no way complete but will allow health care providers to imbibe the concept of quality and make them aware of the diagnostic services offered at different levels of health facilities. All health care providers are therefore urged to adhere to the standards drawn. As time changes and medical science expands there is always room to amend and improve diagnostic services further.

Besides adhering to clinical laboratory standards I would urge all health providers and friends to make use of other clinical standards, guidelines, operating procedures, handbook on universal precaution etc while delivering services to the clients. Your efforts will definitely bring in quality in health care facilities.

Our quest is to improve quality of health care services across the country and I wish all health family members good luck in this endeavor.

Dr Gado Tshering  
Secretary

## **Introduction**

Diagnostic laboratory tests are making an increasingly important contribution to the quality and cost-effective delivery of clinical health care worldwide, mainly due to ongoing technological innovation, advances in evidence-based medicine and changing demographic profiles. Increasing affluence and improved medical care have resulted in a population that is ever more dependent on diagnostic testing to support increasingly sophisticated diseases treatment and disease prevention programmes.

In Bhutan, these global trends have translated into a higher patients expectations and demand for services but a diagnostic laboratory expenditure in excess of what generally can be borne by the Royal Government. The rate of increase in tests parameters are increasing with addition of newer clinical services at the referral hospitals, expansion of peripheral health facilities and programmes which directly has a bearing on the laboratory service's continued acceleration of cost and management issues that are of concern to the health funders and planners.

In developing country like Bhutan, where emergencies and acutely ill patients comprise between a quarter to a third of the total patient load, good quality care requires reliable and prompt laboratory support. In seriously ill patient, tests are needed to confirm the diagnosis and for deciding on immediate resuscitative care, for monitoring of patient during the stage of rehabilitation and for prognosis during follow up. To be of benefit in the decision making the laboratory support must be reliable, accurate and prompt. However, such laboratory back up is available only in bigger hospitals like the regional ones. Heavy capital outlay for equipment and its maintenance cost of reagents and the need for trained and highly skilled personnel has hitherto impeded the development of laboratory services to the desired levels.

Thus, it was envisioned that the laboratory services need to be standardized at various levels of health facilities to match the requirement of the hospitals matched equally with skilled manpower and availability of a constant supply of reagents and consumables. Therefore, except for the high -end equipments with a broad range of tests parameters at the national and regional hospitals levels, the aim is to promote simple and low cost, but robust assays methodologies at the district hospitals and beyond which can be performed by minimally trained technicians utilizing simple equipments and yet capable of giving results with acceptable accuracy and precision.

Clinical laboratory services is a multi-disciplinary specialty comprising of clinical hematology, biochemistry, microbiology, molecular and serodiagnostics, cytology, hispopathology, blood banking, parasitology and allied services. Efforts are made to standardize the clinical laboratory services at different levels of health facilities starting from the wide parameters of tests at the National Referral Hospital to a few parameters at the Basic Health Unit II levels, matched with the expected skilled human resource and equipment and supplies.

It is expected that these standards would help the hospitals and planners to:

- Provide minimum standard packages of laboratory tests at each level of facility.
- Promote rational use in order to ensure prevention, diagnosis and treatment of diseases.
- Ensure a minimum standard of HR skills and competencies to support the packages of care and maintain professionalism among laboratory personnel.
- Ensure provision of appropriate standardized equipment and supplies at each level of facility
- Help easier forecast of supplies and adequate indenting
- Help maintenance of equipments and spares stock.
- Establish appropriate standardized laboratory designs for each level of facility.
- Promote partnership and collaboration at local and regional levels by sharing of technologies, supplies and human resources.

## **Acknowledgement**

The draft standards for clinical laboratory services were reviewed and finalized during the workshop held in November 2008 in Paro with following professionals taking part.

- Rup Narayan Chapagai, Program Director, QASD
- Tandin Pemo, Chief Program Officer, DMS
- Deki Pemo, Deputy Director, RIHS
- Dr. Krishna Sharma, Head of Clinical Laboratory Services, JDWNRH
- Dr Bhakta Raj Giri, Senior Medical Specialist, JDWNRH
- Sonam Wangchuck, Public Health Laboratory, DoPH
- Tashi Dhendup, Program Officer, QASD
- Samten Wangmo, Program Officer, QASD
- Karma Tshering, Incharge Microbiology, JDWNRH
- Jigme Tenzin, Incharge Biochemistry, JDWNRH
- Dorji Phuntsho, Incharge Blood Bank, JDWNRH
- Dorji, Wangchuck, Hematology, JDWNRH
- Sonam Penjore, Histopathology, JDWNRH
- Wangmo, Cytology, JDWNRH
- Sonam Peldon, Laboratory Technologist, Gelephu, Hospital
- Dorji, Microbiology, JDWNRH
- Deki, Human Resource Division, MoH
- Kinley Wangchuk, Assistant Program Officer, QASD

We express our appreciation to all the reviewers and colleagues for sharing experiences and making valuable contributions while drafting and finalizing the clinical laboratory standards

As we all are aware that Medical Science is rapid in expansion and these clinical laboratory standards are therefore not static and would require amendment from time to time. Till such revisions are incorporated all health professionals are urged to adhere to the standards while providing diagnostic services to the clients.

## STANDARD MICROBIOLOGY TEST AT DIFFERENT LEVELS

Sl. No	Procedure/Speci- men/Test	Disease/organism	NRH	RRH	DH	BHU-I	BHU-II
<b>BACTERIOLOGY</b>							
<b>Unstained wet preparations</b>

4	Cool box to transport blood bags	+	+	+	-	-
5	Dielectric tube sealer	+	+	+	+	-
6	Donor Couche	+	+	-	-	-
7	Electronic Blood measuring scale	+	+	-	-	-
8	Hand tube stripper with roller and cutter	+	+	+	+	-
9	Blood Bank Bench top centrifuge	+	+	+	-	-
10	Refrigerated blood processing centrifuge	+	+	-	-	-
11	Plasma thawing device	+	+	-	-	-
12	Column Agglutination Test system	+	-	-	-	-
13	Sterile connecting device	+	-	-	-	-
14	Apheresis machine	+	-	-	-	-
15	Manual Plasma expresser	+	+	+	+	-
16	Platelet agitator and incubator	+	+	-	-	-
17	Plasma Storage freezer:	+	+	-	-	-
18	Ice-lined Blood Bank Refrigerator	+	+	+	-	-
11	Standard blood bank refrigerator	+	+	+	-	-

## GENERAL LABORATORY EQUIPMENTS STANDARDS

<b>Sl/No</b>	<b>Particular Specification</b>	<b>NRH</b>	<b>RRH</b>	<b>DH</b>	<b>BHU I</b>	<b>BHU II</b>
1	Balance: 0.01g Readability	+	+	+	+	-
2	Bench top Centrifuge	+	+	+	+	-
3	Deep Freezer. Temperature Range: - 25 to -40°C.	+	+	-	-	-
4	Distillation plant (double distiller)	+	-	-	-	-
5	Distillation plant: (mono distiller)	+	+	+	+	-
6	Fume Hood	+	+	-	-	-
7	Haematocrit Centrifuge.	+	+	+	-	-
8	Ice lined refrigerator	+	+	+	-	-
9	Microlitre Pipette, Adjustable, Volume range: 100-1000ul	+	+	+	+	-
10	Microlitre Pipette, Adjustable, Volume range: 20-200ul-	+	+	+	+	-
11	Microlitre Pipette, Adjustable, Volume range: 5-50 ul-	+	+	+	+	-
12	Microlitre Pipette, adjustable. Vol.range 1000 - 5000ul-	+	+	+	+	-
13	Microscope, binocular: For routine works	+	+	+	+	+
14	Microscope, binocular. For specialized works	+	+	+	+	-
15	Microscope: Multi head with CCTV system and LCD monitor	+	-	-	-	-
16	Microwave oven: Power: 220V, 50/60Hz	+	+	-	-	-
17	pH Meter	+	+	-	-	-
18	Refrigerator with glass door: Capacity: >1000 liters	+	+	+	-	-
19	Refrigerator with glass door: Capacity: >250 to 350 liters	+	+	+	+	-
20	Shaker, Programable	+	+	+	+	-
21	Vortex mixer	+	+	+	+	-
22	Water bath	+	+	+	+	-
23	Barcode printer	+	+	-	-	-

## HAEMATOLOGY EQUIPMENTS STANDARDS

S/No	Particular Specification	NRH	RRH	DH	BHU I	BHU II
1	Automated Blood Coagulation Analyzer:	+	+	+	-	-
2	Automated ESR Analyzer	+	-	-	-	-
3	Compact Automation for Haematology	+	-	-	-	-
4	Digital Blood Cell Counter for Differential Leukocyte Count	+	+	-	-	-
5	Gel Electrophoresis Chamber Set	+	-	-	-	-
6	Haematology Analyzer, 5-part Diff	+	-	+	-	-
7	Haematology Analyzer 3-part differential	-	-	+	-	-
8	Thomazeiss Haemocytometer with improved Neubauer rulings	-	-	+	+	-
9	Automated Slide Preparation Unit	+	+	-	-	-
10	Swing Roll Mixer: Speed - 0 to 60, Capacity - 1 to 20 tubes	+	+	+	-	-
11	Flow Cytometer for diagnosis of Haematological malignancies	+	-	-	-	-

## HISTOPATHOLOGY & CYTOLOGY EQUIPMENTS STANDARDS

S/No	Particular Specification	NRH	RRH	DH	BHU I	BHU II
<b>Cytology</b>						
1	Cyto Centrifuge	+	+	-	-	-
<b>Histology</b>						
2	Automatic Tissue Processor	+	+	-	-	-
3	Gross Work Station	+	+	-	-	-
4	Rotatory Microtome	+	+	-	-	-
5	Tissue Floating bath (Thermostatic)	+	+	-	-	-
6	Slide Warmer,	+	+	-	-	-
7	Microwave Tissue Processor	+	+	-	-	-
8	Tissue Embedding Station with wax Dispenser:	+	+	-	-	-
9	Tissue Block cabinet to store atleast 20,000 paraffin blocks	+	+	-	-	-
<b>Histology + Cytology</b>						
10	Automatic Slide Stainer	+	+	-	-	-
11	Slide Cabinet	+	+	+	-	-

## CLINICAL MICROBIOLOGY EQUIPMENTS STANDARDS

S/No	Particular Specification	NRH	RRH	DH	BHU I	BHU II
1	Anaerobic chamber	+	-	-	-	-
2	Anaerobic jar	+	+	+	-	-
3	Antibiotic susceptibility reader	+	-	-	-	-
4	API strip reader	+	+	-	-	-
5	Auto-steam sterilizer. Capacity 50 - 60 liters	+	+	+	+	-
6	Auto-steam sterilizer. Capacity 80 - 100 liters.	+	+	-	-	-
7	Balance: 0.0001g	+	+	-	-	-
8	Biosafety level-II type II A1	+	+	+	+	-
9	Biosafety level-type II B1 cabinet:	+	-	-	-	-
10	Blood culture system	+	+	-	-	-
11	Bunsen burner: 3 mode system	+	+	+	+	-
12	Centrifuge, refrigerated, multipurpose	+	+	-	-	-
13	Dispenser:	+	-	-	-	-
14	Electrophoresis power supply:	+	-	-	-	-
15	Filter unit: pore size 0.45 µm.	+	+	-	-	-
16	Flow Cytometry,	+	+	-	-	-
17	Freezer: Temperature Range: - 60 to - 85°C.	+	+	-	-	-
18	Gel photo documentation	+	-	-	-	-
19	High performance liquid chromatography (HPLC)	+	-	-	-	-
20	Homogenizer:	+	+	-	-	-
21	Hot air oven: Capacity: 50 - 100 liters.	+	+	+	+	-
22	Hot plate & magnetic stirrer:	+	+	+	+	-
23	Ice maker:	+	-	-	-	-
24	Incubator (Shaking)	+	-	-	-	-
25	Incubator Co2:	+	+	-	-	-
26	Incubator: Capacity: 100 - 300 liters.	+	+	-	-	-
27	Incubator: Capacity: 50 - 100 liters.	+	+	+	+	+
28	Inspissator:	+	+	-	-	-

## CLINICAL MICROBIOLOGY EQUIPMENTS STANDARDS

S/No	Particular Specification	NRH	RRH	DH	BHU I	BHU II
29	Laminar flow cabinet:	+	+	-	-	-
30	Micro-centrifuge	+	-	-	-	-
31	Micropipette: adjustable, volume range: 0.1 - 2.5 µl	+	-	-	-	-
32	Micropipette: adjustable, volume range: 0.5 - 10 µl	+	-	-	-	-
33	Micropipette: adjustable, volume range: 2 - 20 µl	+	-	-	-	-
34	Microplate reader	+	+	-	-	-
35	Microplate washer	+	+	-	-	-
36	Microscope, binocular, fluorescent	+	+	-	-	-
37	Microscope, binocular: phase contrast, darkfield & bright field	+	+	-	-	-
38	Pipette filler, digital	+	+	+	-	-
39	Serological analyzer (Infectious diseases)	+	+	-	-	-
40	Shaker: (Rotary mixer),	+	+	-	-	-
41	TB culture system	+	-	-	-	-
42	Thermal cycler: (Real Time with silver block).	+	-	-	-	-
43	Turbidometer	+	+	+	-	-
44	Twin Incubator. For incubation & hybrid- ization	+	-	-	-	-
45	Vacuum pump:	+	-	-	-	-

## CLINICAL BIOCHEMISTRY STANDARDS: CONSUMMABLES

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

Sl. No	Post	PCS Level	Existing	Reqd.	Addi- tional re- quired	Qualifications
<b>JIGME DORJI WANGCHHUK NATIONAL REFERRAL HOSPITAL, THIMPHU</b>						
<b>DEPARTMENT OF PATHOLOGY AND LABORATORY MEDICINE, JDW/NRH</b>						
1	Head of De- partment		1	1	0	Masters in Pathol- ogy & Microbiol- ogy + 5 yrs exper- ience in CLS
2	Laboratory Supervisor		0	1	1	Graduate/Diploma in any CLS + 5 years of experience in CLS
3	Teaching Coordina- tor		0	1	1	Graduate/Diploma in any CLS + 3 years of experience in MLT teaching
4	Laboratory Quality Manager		0	1	1	Graduate/Diploma in CLS + 5 yrs ex- perinece in CLS
5	Laboratory Infor m a- tion System Manager		0	1	1	Diploma in CLS with knowledge in LIS/statistics
6	Lab Supplies coor- dinator		0	1	1	Graduate/Diploma in CLS + 5 yrs experience in lab supplies
	<i>Comment:</i> The above positions will be held by existing officials as additional responsibility in addition to their technical responsibility.					
<b>1. CLINICAL CHEMISTRY</b>						
1	Biochemist		0	1	1	Master in Clinical Chemistry

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

<b>Sl. No</b>	<b>Post</b>	<b>PCS Level</b>	<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional re-quired</b>	<b>Qualifications</b>
2	Medical Technolo-gist, Bio-chemistry		1	2	1	B. Sc MLT/ PG di-ploma in Clinical chemistry
3	MLT, Bio-chemistry		1	2	1	Diploma in Clinical chemistry
4	MLT		5	10	5	RIHS graduates with/without cer-tificates in clinical chemistry
			7	15	8	
<b>2. IMMUNOLOGY</b>						
1	Immunolo-gist		0	1	1	Masters in Immu-nology
2	Medical Technolo-gist, Immunol-ogy		0	1	1	B.Sc MLT/PG di-ploma in immunol-ogy
3	MLT, Im-munology		0	1	1	Diploma in immu-nology
4	MLT		1	2	1	RIHS graduates with/without cert in immunology
			1	5	4	
<b>3. CLINICAL MICROBIOLOGY</b>						
1	Microbiol-ogist		1	2	1	Masters in Micro-biology
2	Medical Technolo-gist, Micro-biology		0	2	2	B.Sc MLT /PG di-ploma in Microbi-ology

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

<b>Sl. No</b>	<b>Post</b>	<b>PCS Level</b>	<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional re-quired</b>	<b>Qualifications</b>
3	Infection Control Officer		0	1	1	PG/ Diploma in Infectious diseases
4	MLT, Mycology		0	1	1	Diploma in Mycology
5	MLT, Parasitology		0	1	1	Diploma in Parasitology
6	MLT, Virology		0	1	1	Diploma in Virology
7	MLT, Serology		0	1	1	Diploma in Serology/imunology
8	MLT, Bacteriology		1	1	0	Diploma in Bacteriology
9	Microbiologist, Molecular lab		1	1	0	M.Sc Microbiology
10	MLT, Mycobacteriology		0	1	1	Diploma in Mycobacteriology
11	MLT		5	10	5	RIHS Graduates with/without certificates in microbiology
			8	22	14	

### **4. CLINICAL HAEMATOLOGY**

1	Haematopathologist		0	1	1	Pathologist with 1 yr fellowship in hematopathology
2	Medical Technologist		0	1	1	B.Sc MLT/ PG Diploma in haematology
3	MLT, Haematology		1	2	1	Diploma in Clinical Haematology

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

<b>Sl. No</b>	<b>Post</b>	<b>PCS Level</b>	<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional re-quired</b>	<b>Qualifications</b>
4	MLT		4	6	2	RIHS Graduate with cert in flow-cytometry, hematotechniques
			5	10	5	
<b>5. ANATOMIC PATHOLOGY</b>						
	<b>a. HISTO-PATHOL-OGY</b>					
	Pathologist		1	2	1	Masters in Pathology and Microbiology
1	Onco-pathologist		0	1	1	Pathologist with fellowship in oncopathology (one of the above pathologists)
2	Medical Technologist, Histology		0	1	1	B.Sc MLT/PG Diploma in Histotechnology
3	MLT, Histotechnol-ogy		0	2	2	Diploma in histotechnology
4	Pathology Museum Curators		0	1	1	Class XII, trained in museum curatorship
5	MLT		2	3	1	RIHS Graduate with cert in histotechnology & immunochemistry
			2	8	6	

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

<b>Sl. No</b>	<b>Post</b>	<b>PCS Level</b>	<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional re-quired</b>	<b>Qualifications</b>
	<b>b. CYTO-PATHOL-OGY</b>					
1	Cytopatholo-gist		1	1	0	Pathologist with fellowship in cyto-pathology
2	Cyto Tech-nologist		0	2	2	CMIAC/CFIAC/ PG Diploma in Diagnostic Cytology
3	MLT, Cyto-technicians		4	4	0	Diploma in cytology
4	MLT		0	2	2	RIHS Graduate with/without cert in immunocy-tochemistry
			5	9	4	

### 6. BLOOD BANK

1	Blood Bank Officer		1	2	1	MD/ Diploma in Transfusion Medicine
2	Medical Technolo-gist, Blood Bank		0	1	1	B. Sc, MLT
3	MLT, Blood Bank		1	2	1	Diploma in Blood Banking
4	MLT		5	10	5	RIHS Grduate with/without cert in blood banking
5	Donor re-cruitment Personnel		0	1	1	Certificate in donor management
			7	16	9	

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

Sl. No	Post	PCS Level	Existing	Reqd.	Addi-tional re-quired	Qualifications
	Note: JD-WNRH Lab requires a total of 84 Technical staff as against the existing 38					

### GENERAL SUPPORT STAFF REQUIRED AT NRH

1	Lab Assistant		4	19	15	Class X
2	Sweepers		2	4	2	
3	Receptionist (Donor registration)		0	2	2	Class X
4	Receptionist (Sample collection and report despatch)		1	3	2	
5	Lab statistician		0	1	1	
6	Peon		0	1	1	
7			7	30	23	

### HRD REQUIREMENT FOR REGIONAL REFERRAL HOSPITAL (MONGAR & GELEPHU)

1	Pathologist		1	2	1	Masters in Pathology & Microbiology
---	-------------	--	---	---	---	-------------------------------------

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

<b>Sl. No</b>	<b>Post</b>	<b>PCS Level</b>	<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional re-quired</b>	<b>Qualifications</b>
2	Blood bank officer		0	2	0	MD Transfusion Medicine /Diploma Transfusion Medicine
3	Biochemist		0	2	0	Masters in Clinical Chemistry/PG Diploma in Clinical chemistry
4	Microbiologist		0	2	0	Masters/PG Diploma in Microbiology
5	Lab Technologist		2	4	2	B. Sc MLT
6	MLT Microbiology		2	4	2	Diploma Microbiology
7	MLT Blood Banking		0	2	2	Diploma in blood banking
8	Cytotechnician		2	4	2	Diploma in diagnostic cytology
9	Haematology Technician		0	2	2	Diploma in haematology
10	MLT Biochemistry		0	2	2	Diploma Biochemistry
11	Cytotechnologist		0	2	2	CFIAC/CMIAC/ PG Diploma
	Histopathology		0	2	2	Diploma in histotechnology
12	General Lab Technician		17	30	13	RIHS recruit with/ without adtional cert level trainings
			24	60	30	

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

Sl. No	Post	PCS Level	Existing	Reqd.	Addi-tional re-quired	Qualifications
	Support Staff for 2 RRHs					
13	Lab Assistant		2	10	8	Class XII
14	Sweepers		0	4	4	
15	Office secretary		0	2	2	
			2	16	14	

### **DISTRICT HOSPITALS (40 - 60 Bedded) Paro, P/Ling, Samtse, Punakha, Damphu, Yebilaptsa, T/gang, S/Jongkhar**

Sl	Post		Existing	Reqd.	Addi-tional	Qualifications
1	Lab Technologist		0	8	8	B. Sc MLT/PG Diploma
2	MLT Microbiology		0	8	8	Diploma/certificate in Microbiology
3	MLT Blood Banking		0	8	8	Diploma/certificate in blood banking
4	Cytotechnician		5	8	3	Diploma/certificate in diagnostic cytology
5	Haematology Technician		0	8	8	Diploma/certificate in haematology
6	MLT Biochemistry		0	8	8	Diploma/certificate Biochemistry
7	General Lab Technician		22	32	10	RIHS graduates

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

<b>Sl. No</b>	<b>Post</b>	<b>PCS Level</b>	<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional re-quired</b>	<b>Qualifications</b>
			27	80	53	
	Support Staff					
12	Lab Assistant		0	8	8	Class XII
13	Sweepers		0	8	8	
			0	16	16	

### **9. DISTRICT HOSPITAL (20 bedded)**

<b>Sl</b>	<b>Post</b>		<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional required</b>	<b>Qualifications</b>
1	Lab Technologist		0	19	19	BSc MLT/PG Diploma/Sr MLT
2	General Lab Technician		22	38	16	RIHS graduates
			22	57	35	
	BHU-I (10 Bedded)					
<b>Sl</b>	<b>Post</b>		<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional required</b>	<b>Qualifications</b>
1	General Lab Technician		18	36	18	RIHS graduates

**National Health Laboratory Services, MoH (Formation proposal at MoH)**

## HUMAN RESOURCE REQUIREMENT FOR CLINICAL LABORATORY SERVICES

<b>Sl. No</b>	<b>Post</b>	<b>PCS Level</b>	<b>Existing</b>	<b>Reqd.</b>	<b>Addi-tional re-quired</b>	<b>Qualifications</b>
1	Chief Program Officer			1		Masters/Graduate in any clinical laboratory science (CLS)
2	Laboratory Quality Assurance Coordinator			1		Graduate in any CLS
3	Lab Supplies coordinator			1		Diploma in any CLS
4	Teaching and Training coordinator			1		Graduate in any CLS
5	Support staffs			6		Office assistants, sweepers, receptionists, drivers

## OVERALL HR PROJECTION

1	Total Technical staff required	<b>316</b>
2	Total Existing	<b>128</b>
3	Additional required	<b>188</b>

## **Abbreviations**

AFB	Acid fast bacilli
TB	Tuberculosis
CSF	Cerebrospinal fluid
ELISA	Enzyme linked immunosorbent assay
ASO	Antistreptolysin O
RF	Rheumatic factor
CRP	C-reactive protein
KOH	Potassium hydroxide
HIV	Human Immunodeficiency virus
HBsAg	Hepatitis B surface antigen
HCV	Hepatitis C virus
RT-PCR reaction	Real time/Reverse transcriptase - Polymerase Chain reaction
CD	Cluster of differentiation
HCV	Hepatitis C virus
ICT	Immuno-chromatography
CMV	Cytomegalovirus
R/S	Reagent strip
C/I	Culture & identification
TORCH	Toxoplasma, Rubella, and cytomegalovirus
RPR	Rapid plasma reagins
TPHA	Treponema pallidum haemagglutination
HbA1C	Haemoglobin A1C
BUN	Blood urea nitrogen
ALT (SGPT)	Alanine aminotransferase
AST (SGOT)	Aspartate aminotransferase
GGT	(gamma) Glutamyl transpeptidase
HDL	High density lipoprotein
LDL	Low density lipoprotein
CPK	Creatinine phospho kinase
CK-MB	Creatinine kinase MB
LDH	Lactate dehydrogenase
Co2	Carbon-dioxide
SLE	Systemic Lupus erythematosus
T3	Tri-iodothyronine
T4	Thyroxine
TSH	Thyroid stimulating hormone
LH	Luteinizing hormone

FSH	Follicle stimulating hormone
HCG	Human chorionic gonadotropin
AFP	Alpha-feto protein
CEA	Carcinoembryonic antigen
PSA	Prostate specific antigen
C3	Complement-3
C4	Complement-4
CA 15 – 3	Cancer antigen 15 - 3
CA 19 – 9	Cancer antigen 19 - 9
CA 125	Cancer antigen 125
ANCA	Anti-neutrophil cytoplasmic antibodies
TIBC	Total iron binding Capacity
UIBC	Unsaturated iron binding Capacity
WBC (TLC)	White blood cell (Total leucocyte count)
RBC (TRBC)	Red blood cell (Total red blood cell)
LE	Lupus erythematosus
G6PD	Glucose 6-phosphate dehydrogenase
H & E	Hematoxilin & eosin
